Building comprehension strategies

for the primary years

Dr Alison Davis

Skilled readers are active readers, using many comprehension strategies to make meaning before, during and after reading.

Building comprehension strategies focuses on the strategies used to successfully develop the comprehension ability of primary school students.

Dr Alison Davis is a leading literacy researcher, writer, speaker and staff trainer. Alison is particularly well known, especially in New Zealand, for her research on reading comprehension. She has led initiatives focused on accelerating and sustaining improved levels of reading comprehension in students of all levels of ability.

The accompanying CD ROM contains blackline masters and graphic organisers that can be used for independent, pair and small-group work during instruction, and as part of planned practice and maintenance throughout the year.
